

Intelligent protection

Security means different things to different people...

To many it means having a partner they can trust and rely on. To some it means an occasional helping hand. To others it's about smart systems.

What does security mean to you? When it comes to your people and your business, many factors come into play and they all influence your protection requirements.

...to us it's about intelligent protection.

Your needs are unique, and so your security solution should be too. At Global, we believe in intelligent protection. It's a flexible and dynamic approach – an approach that brings together the right systems, solutions and response plans to ensure that you get what you need.

Nothing to worry about

The definition of security is the 'prevention of loss', encompassing personal safety, property and assets, profitability, and brand image. No matter which aspects of it are most important to you, we've got you covered. Our proven methodology is based on proactive prevention strategies combined with a fast and effective response when needed.

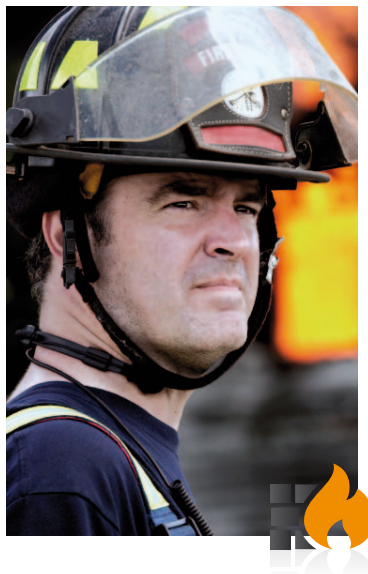

Along with top quality equipment, we employ only the best professionals in our field. These are experts that you can rely on – from dedicated account managers and control centre staff through to highly skilled installers and security officers. Not only are they highly experienced and know what to do in an emergency – they care.

We have over 20 years of experience in the New Zealand security sector, and we aim to continually lift the level of industry professionalism. We are always looking for new and better strategies.

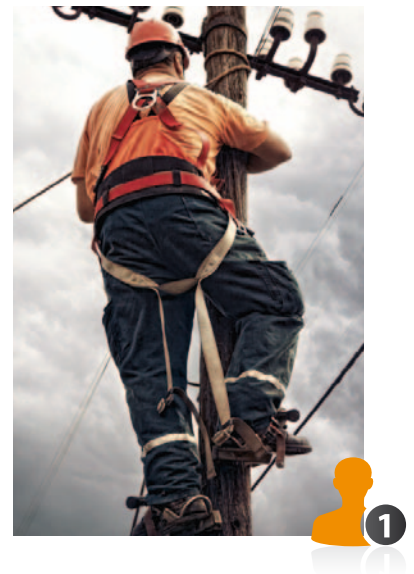

Business

Preserve the integrity and continuity of your business and the confidentiality of your clients by protecting your business from disruption and asset loss.

Fire

Protect your business or home from unnecessary fire and smoke damage with our 24/7 intelligent control centre that will immediately despatch fire services.

Lone worker

Take care of your vulnerable workers - with our specialised technology and highly skilled operators, we ensure they are never alone, no matter which environment they work in – 24/7.

Speed

Speed of response and security escalation are crucial. In most situations, you can't afford costly downtime – especially when your people and fragile products are involved. At Global Security, we leave nothing to chance.

As part of our intelligent protection offering, Global Security maintains a 24 hour control centre, plus provides reliable guard and technical services in all parts of the country. Our staff are prompt, professional and diligent. They are the people on the ground.

Making it easy

We understand that you need to get on with business. From the smooth transition of your business to Global Security through to the on-going administration and support, our team provide a personable and trouble free experience. We take care of everything security, so you don't have to. You'll hardly notice we are there until you need us.

Systems

Avoid unnecessary downtime and product loss with instant 'system down' status notifications from plant equipment, air conditioning systems, freezers and server rooms.

High risk individual

Protect your high-risk staff – for example: executives, health and banking professionals, and elderly relatives – with our enhanced response plans. 24/7 coverage at work and at home.

Home

Make sure your families, your home and your valuables are all protected well and safe from fire, intrusion, vandalism and burglary.

If this is your idea of
security... think again.

A simple lock or alarm system may be a quick fix, but it doesn't achieve much when it comes to business and home security. In today's fast-paced world, preventative measures, instant notification and responsive action are key.

 **GLOBAL** | **SECURITY**
INTELLIGENCE

...much better to have a proactive team you can trust.

We don't wait until your business is disrupted – we are there for you along the way to prevent issues. Our intelligent systems and response protocols will alert you early with clear reporting. By minimising downtime, we can help you reduce risk and minimise potential losses.

World-class service

The team at Global Security can draw on a huge breadth of experience in advising you on security matters. From design and installation through to ensuring your systems are serviced regularly – we guide you through each step of the process and deliver an effective, industry leading service.

Utilising cutting-edge security equipment and skilled control centre specialists, we are your eyes and ears 24 hours a day, seven days a week. We install, monitor and manage all events from security alarms, computer suites, personal medical systems, major plants, building management systems, GPS alerts, personnel and CCTV systems. Our team answers calls in 7 seconds on average, and can provide extensive reporting.

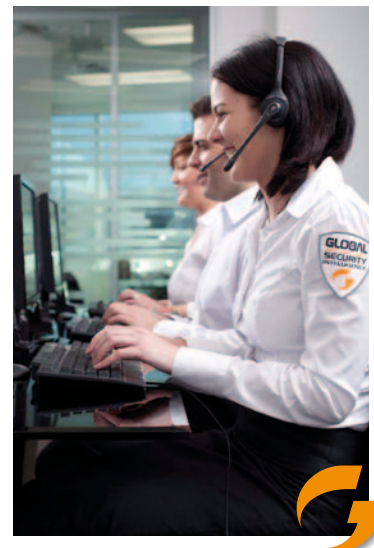

Consult

Your issues and challenges are our starting point. Our experts will custom-design the right solution for you and guide you through the process.

Install

We provide you with state of the art security alarm, camera and access control systems. We only use products produced by industry leaders.

Monitor

Global Security uses world-leading monitoring equipment. Our control rooms are staffed by highly trained, Police cleared personnel, 24 hours a day.

We're in it for the long run

Many of our clients are repeat customers and we have developed strong, long-term relationships with them. We invest in quality equipment and our staff turnover is extremely low. Our working culture and inclusive partnership approach mean that we retain invaluable skills and knowledge – and we can share them with you.

Your one stop shop

Global Security offers a wide range of services that protect you, your staff, your family, your premises and your property. This wide range of services means that you can work with just one provider. We can design a complete package, ensuring consistent and integrated protection across your portfolio. Our security solutions are fully custom-tailored and designed to meet your specific needs.

“You and your property will receive the most attentive and responsive protection services at all times. We care about every single customer relationship.”

Ross Johnson, Owner,
Global Security Solutions Limited

Respond

Global Security offers informed reliable security guard and patrol response services nationwide. It's not just a patrol service, it's hard and fast protection.

Maintain

To keep your systems fully operational at all times, we develop on-going maintenance plans which provide preventative and tailored service and support.

Connect

We keep you firmly in the loop, because we believe in building strong working relationships. Our commitment to customer service means we take your security personally.

Backed up with technical support and service.

At Global Security, we provide a full suite of technical services. We design, install and maintain a very wide range of electronic security systems and solutions – including alarms, CCTV, access control, gate control and automation, fencing, and point of sale monitoring.

Service and maintenance

We exclusively use reliable brand products and suppliers that offer long product guarantees. With a focus on preventative maintenance, we custom-tailor our service schedule to meet your needs and support this with responsive helpdesk and administration functions.

Our cutting-edge equipment is supported by a network of over 70 security cleared specialists who are licensed to work on different brands and applications. These technicians are distributed across New Zealand, ensuring a consistent nationwide service delivery. Backed up by our control centre, they operate around the clock and cover your local area.

From single sites to nationwide multi-property portfolios – we offer intelligent protection services for a range of clients with varying security requirements.

Alarm systems

Alarm systems can include a range of different technologies and components. Our specialists can advise which system will deliver the best results for you and your business.

CCTV Surveillance

Camera surveillance is an important element of our intelligent protection strategy. Used proactively, it is a very useful and cost-effective tool to improve security quality and to prevent loss – it never sleeps!

Fault fixing

Our sophisticated monitoring software alerts us early on, ensuring that we can take the right steps to get your systems back up and running in no time. Live online reporting allows you to keep track of progress at all stages.

When a fault occurs, we react instantly and can deploy a technician for trouble-shooting and problem solving. We can service every region around the clock.

Upgrades

We keep an eye on security industry trends and are familiar with the latest technologies and developments. That way, we can maximise the performance of your systems at all times, implementing comprehensive system upgrades when and where necessary.

Seamless integration is a key priority when upgrading or changing security. Our highly skilled experts make it possible. They are experienced in working with a wide range of leading security product brands.

“We invest heavily in our technology and our personnel, to ensure Global Security remains a world-class security provider.”

Ross Johnson, Owner,
Global Security Solutions Limited

Access control

Global Security is highly experienced in installing and servicing intelligent systems ranging from gate automation and card access systems through to biometric scanning devices.

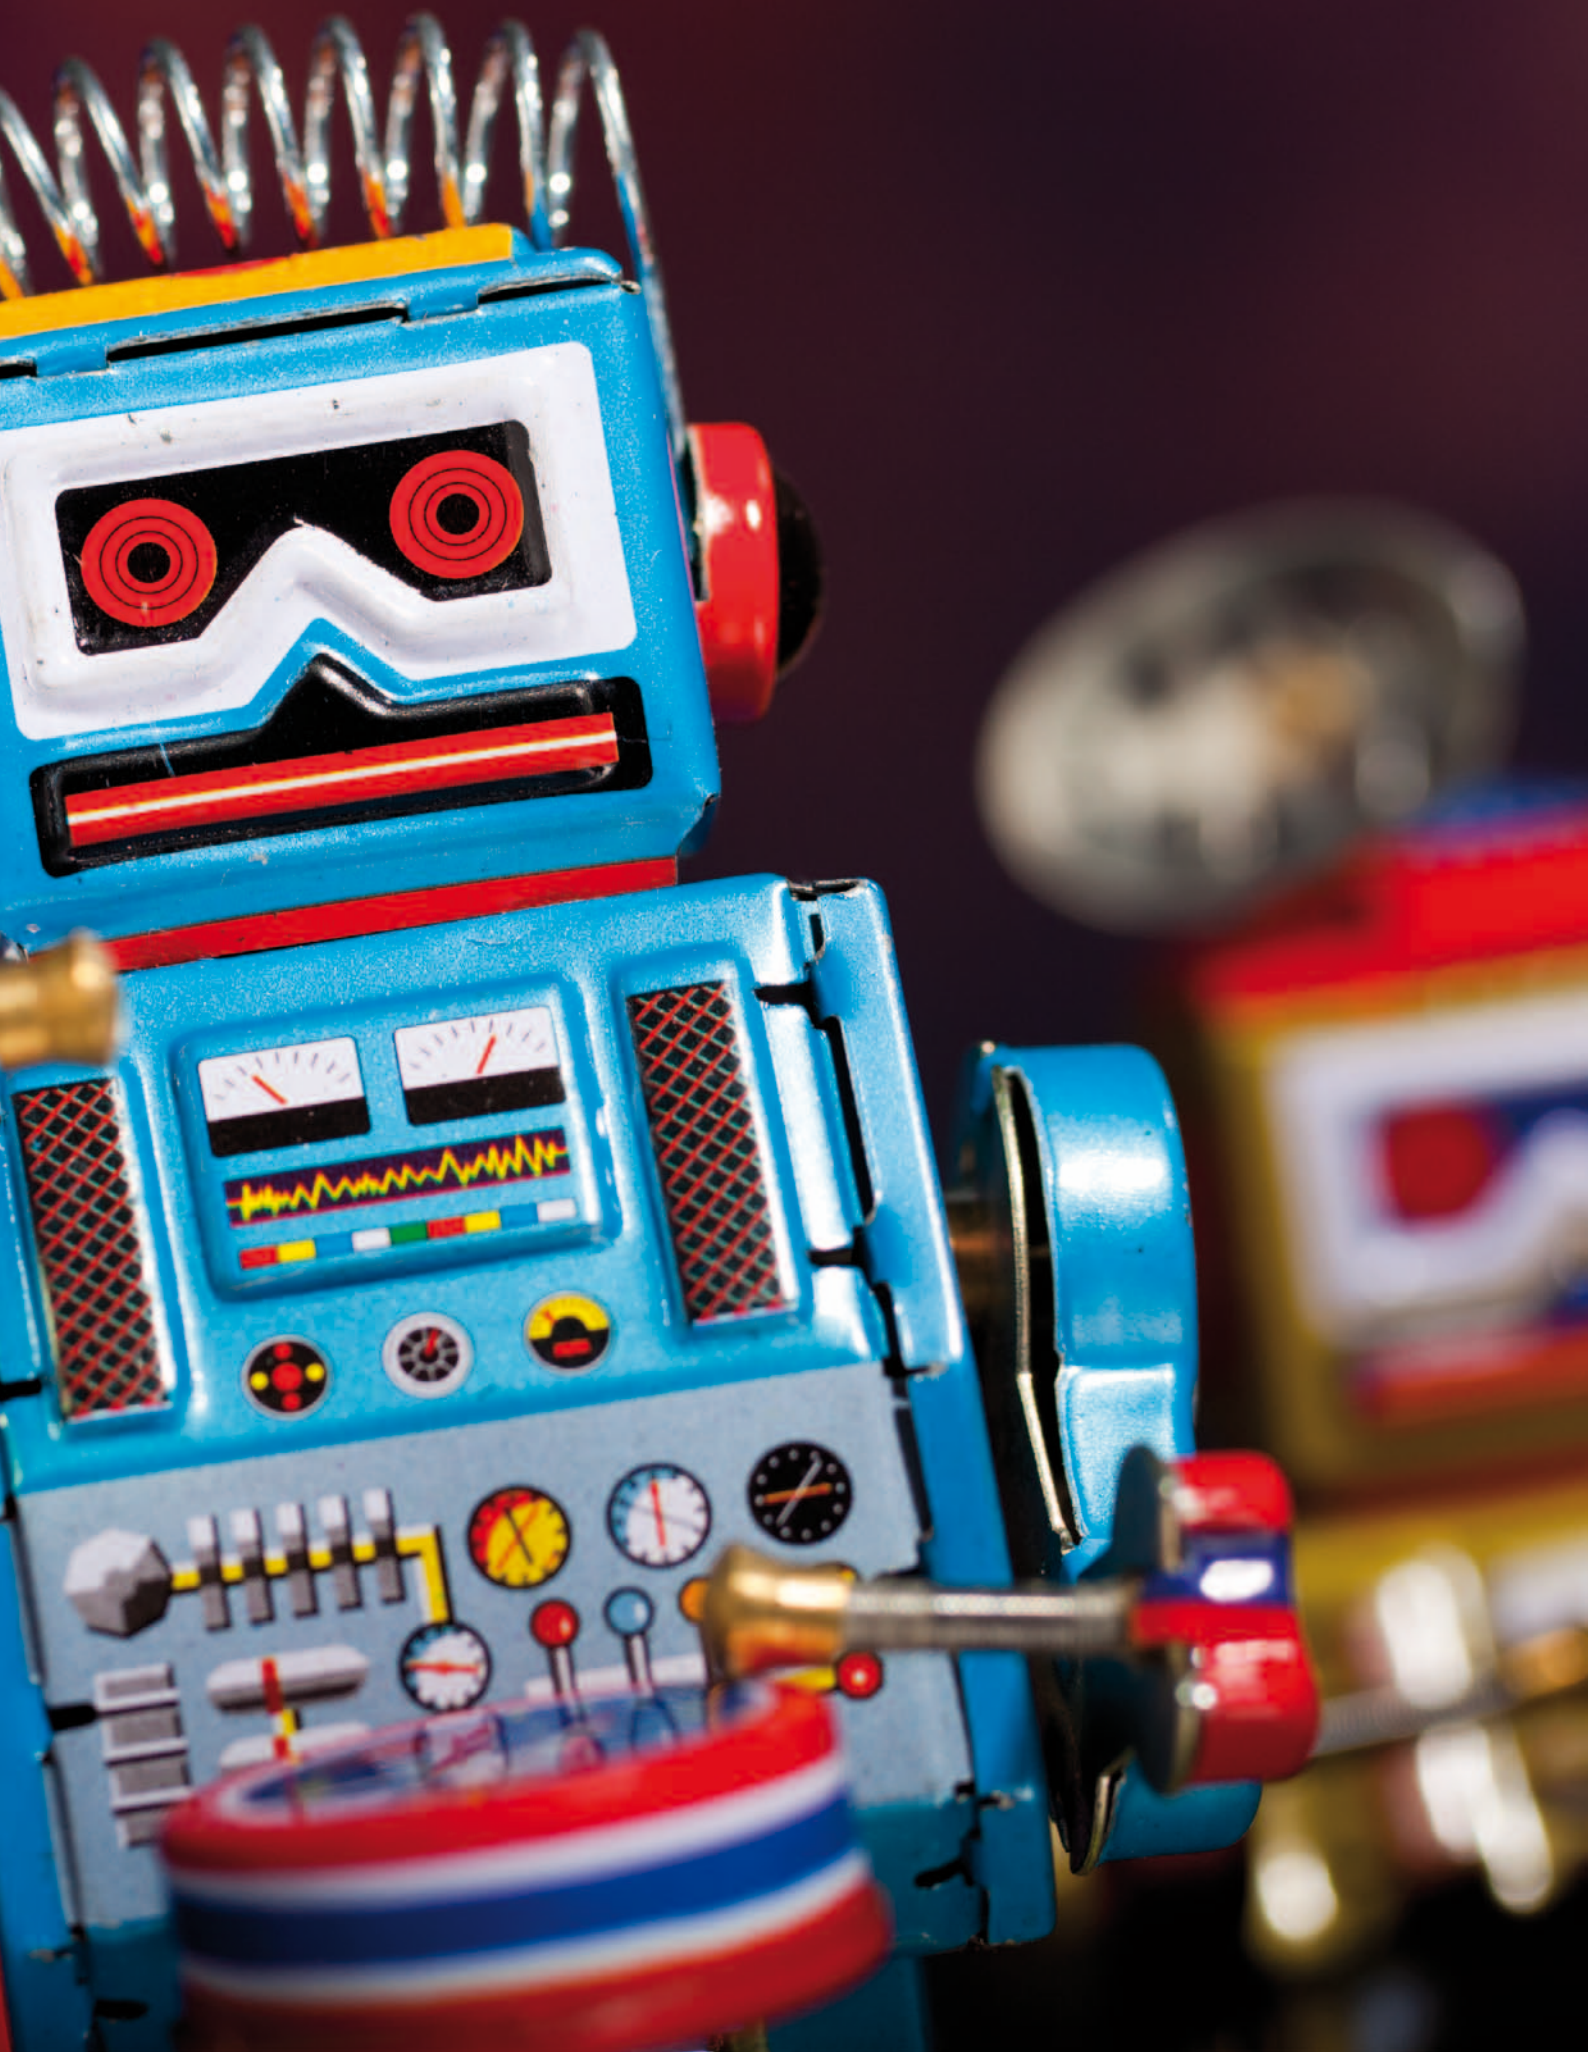

Perimeter protection

Our perimeter protection security solutions form a comprehensive deterrent – including perimeter fencing/barriers, intruder detection and offsite monitoring and response for commercial facilities across New Zealand.

Is your current security firm a robot?

When it comes to your security requirements, a standard, robotic approach leaves a lot to chance. Every business is different and there are many factors to consider. Intelligent protection is proactive and flexible, delivering results.

We're focused on making it easy.

Security is a 'mission critical' environment. We are experts in this area and have staff that specialise in particular security aspects. We operate in the background, so that you can concentrate on your core business. It's about making security easy.

Custom designed solutions

Depending on your requirements, we can partner with your existing security staff or we can manage the complete security function on your behalf. In any case, we start by listening to you. By understanding how your business works, we can design and implement the most efficient and cost-effective security strategy, one that truly meets your needs.

A flexible and intelligent approach

At Global Security, we always keep up with the latest technology to ensure that your people and premises are covered. It's a key part of what we call intelligent protection. Our flexible and dynamic way of working allows us to achieve a smooth service right from the beginning. This includes smooth transitions between monitoring providers, which is absolutely critical to business operations.

Dedicated account manager

A dedicated account manager will ensure that your security needs are met. Our client support and reporting systems are designed specifically for business clients.

Quick issue resolution

Directly supported by management our customer services staff ensure speedy resolutions to client queries/ issues.

Focussed reporting

We provide enhanced reports that point out exceptions, show the current situation and give status updates, helping you focus on what's really important.

A reliable and experienced team

Global Security has been involved in security services for over 20 years, and our management team is made up of industry professionals. We have over 10,000 customers, covering literally every industry, security technology and region in NZ. Our experts protect a wide range of facilities, including large multi storey buildings, major property portfolios, industrial operations, national retail and commercial branch networks, high risk centres, homes, beach houses, people and vehicles. You can rely on us to get it right.

By New Zealanders for New Zealanders

We are a strong New Zealand owned company that provides a committed, local service by employing staff and contractors in every region. We offer nationwide coverage; in fact, we're the third largest security company in the country and the largest New Zealand owned and operated provider. Being a locally owned business means that we are absolutely committed to every single business relationship.

“The commitment and expertise of our staff enables us to confidently offer a service level that many security companies simply cannot”

Ross Johnson, Owner,
Global Security Solutions Limited

Accurate billing

Our streamlined billing system ensures that all your invoices are consolidated and correct. We typically issue one invoice per account per month.

Global view

With real time reporting, you benefit from a live look at your system and a full account of activities. It's instantly available online.

Easy transition

Taking total ownership, we plan, execute and guarantee an easy migration from your service provider to our care.

When was the last time that you discussed security?

Businesses change, evolve and grow – and so do the requirements for security systems. In such a dynamic environment, your systems can only reliably protect you and your business if they are reviewed regularly.

Corporates

For security on a large scale

From consultancy to security management, we offer a full range of security services. We provide a consistent level of service nationwide, with a track record of successful projects and clients.

Cutting-edge technology

Backed by solid software platforms and the latest technology, our business to business experts make sure you get high level reporting, seamless business continuity and quick disaster recovery.

A reliable partner

Global Security is New Zealand's third largest security provider, owned and operated locally. We have a strong financial track record and believe in building long-term partnerships.

One stop shop

Providing a full range of services, consolidated billing and nationwide customer care, we ensure continuity of service across the whole country. We are here to deliver results, without hassle.

SME's

It's your livelihood

Whether it's producing pies, running a retail network, manufacturing goods or offering a service – we take the time to understand your business and your security needs inside out.

Hassle free protection

You have a business to run. That's why we take care of everything security. We make the whole process easy by delivering intelligent protection via a dedicated helpdesk and control centre, 24/7.

Fast responses times

Your business is your livelihood, and we make it our business to protect yours. When something goes wrong, we get to the scene immediately and keep you updated on the progress.

World-class service – locally

We're the third largest security provider in New Zealand – big enough to deliver nationally, small enough to care about each customer. After all, we're a locally owned and operated business, too.

Cross-industry SME expertise:

Health

You can be sure he's not been invited to dinner.

When you're away from home, there is nothing better than knowing that your loved ones are protected. It's also good to have the piece of mind that your property and your possessions are covered.

Residential

Safety measures to protect your treasures

What if somebody broke in? What if someone was home alone at the time? There are so many 'what ifs' – but you don't have to worry about them. Global Security does that for you.

Smart technology

We watch out for your family and property when you're away – including via GPRS or IP monitoring. You can even interrogate your alarm system, via your smart phone.

Medical monitoring

At the push of a button, we are there to take care of medical emergencies. We offer residential and elderly care medical monitoring with advanced alarms and alerting systems.

Preventing fire damage

When integrated with your monitored security system, a smoke alarm gives you 24/7 protection – even when you're not at home. That's something a non-monitored smoke alarm can't deliver.

Safety

Safety first – we ensure that you and your family are reliably protected. When an alarm goes off, we act immediately and leave nothing to chance.

Security

Our monitoring systems are based on the latest technologies and supported by a 24/7 control centre and helpdesk. This includes monitoring of medical alarms.

Property

With over 20 years of experience in monitoring homes, office and corporate multi-site facilities, we're well placed to protect your property.

Who we are

Industry leading security service

At Global Security, we're about intelligent protection. We offer a full range of security services, protecting your people, your property and your brand.

Made in New Zealand

Our services are by New Zealanders for New Zealanders. We are the largest Kiwi owned security provider in the country – a local business with a nationwide presence.

Supporting our community

Being locally owned and operated, we have a real connection to the community. That's why we are actively involved in numerous activities and events.

Charity sponsorship

We are proud to sponsor and support several charities and organisations. Please contact us for further information about the current organisations that we support.
